SUMMARY

Computer Engineering student with hands-on experience in object-oriented design and JavaFX interface development in Java, holding a 3.48 / 4.00 GPA in a 100% English-taught program. Knows Java, C#, C++, Python, JavaScript, HTML and CSS.

EDUCATION

Adana Alparslan Türkeş Science and Technology University Adana, Türkiye
B.Sc. in Computer Engineering *1st Year Completed*
Language of Instruction: 100% English
Cumulative GPA: 3.48 / 4.00 (Semester 2: 3.68 / 4.00)
Highlighted Courses: Object-Oriented Programming (BA), Calculus II (AA)

TECHNICAL SKILLS

Programming Languages: Java, C#, C++, Python, JavaScript, HTML, CSS
UI: JavaFX, FXML
Database: MySQL
Tools: Git, GitHub, IntelliJ IDEA
Core Skills: Algorithmic Problem Solving, Object-Oriented Programming (OOP)

PROJECTS

Ecosystem Simulation — JavaFX *Java 24, JavaFX, FXML, OOP*

- Developed a JavaFX desktop application simulating the daily interactions of plants, bees, rabbits and foxes on a 15x15 grid; migrated an earlier console-based version to an FXML-based graphical interface.
- Designed an extensible class hierarchy using abstract classes (Organism, Animal), interfaces (Predator, Prey), inheritance and polymorphism.
- Implemented energy/metabolism, infection, predation and evasion logic driven by daily randomly generated temperature (25–40°C) and toxin (3–10) levels.
- Built a dynamic grid visualization that groups organisms by species and cell (icons, count labels), along with a day counter and an exit confirmation dialog.

CERTIFICATES

Automotive Summer Camp — Certificate of Achievement July 2026
Automotive Industry Exporters' Association (OİB) and Automotive Manufacturers Association (OSD)

LANGUAGES

Turkish: Native
English: B2 (Erasmus Foreign Language Exam: 82/100 — Preparatory Program Graduate)
